Specification Sheet

Liquidline Q1

Bean to Cup Coffee Machine

Expect to be impressed by the Liquidline Q1, specially designed to deliver coffee shop favourites on a budget by combining freshly ground beans with powdered milk. Slim and stylish, this small but mighty machine is beloved by small businesses with an appetite for great coffee.

LIQUIDLINE

Altogether better

Liquidline
Q1

The Liquidline Q1 bean to cup coffee machine is a cost-effective solution offering delicious hot drinks for your customers, team and visitors to enjoy. Compact, yet powerful, and extremely easy to maintain, the Q1 offers six popular espresso-based drinks, as well as hot chocolate and hot water for tea.

COMPACT DESIGN
With an ultra-compact footprint, the Q1 can squeeze into the smallest of commercial spaces. Requiring just 30.5cm x 43cm of worktop space, and standing at just 62.5cm tall, the Q1 will look at home in any office kitchenette.

SIMPLE OPERATION
The illuminated panel displays a menu of 8 drink options, stylishly presented with beautifully designed iconography. Simply place your cup in the dispense area, select your drink of choice with the touch of a button, and your drink will be automatically prepared and served. For smaller 4oz espresso cups there is also a fold-out cup stand to prevent splashing.

EASY TO REFILL
Thanks to the large capacity 1.2kg bean hopper, refills are infrequent with the Liquidline Q1. When refills of beans and powdered ingredients are required, this can be easily performed via the top of the machine, without opening the door.

EFFORTLESS MAINTENANCE
Cleaning is a breeze with the Liquidline Q1. Simply remove the liquid and coffee waste trays from the front of the machine daily for cleaning, followed by a quick wipe down of all surfaces. A more intensive automated clean of the internal system is required once per week.

EFFORTLESS MAINTENANCE
Choose a plumbed machine for total convenience, or where a main water supply is not available, the Q1 is available with a removable 4-litre water tank.

“Slim and stylish, this small but mighty machine is beloved by small businesses with an appetite for great coffee.”
